INFRASTRUCTURE & EQUIPMENT:

Major Infrastructure & Equipment:

Satyajit Ray Film & Television Institute (SRFTI) has been constructed on a sprawling campus of 39.36 acres of land located at the Eastern Metropolitan Bypass Road in Kolkata. The infrastructure of the Institute consists of the following major buildings and facilities:

(i) Department of Direction & Screenplay Writing:

Situated next to the Admin Block, the building has three floors consisting of three classroom theatres all equipped with state of the art digital projectors and surround sound. The department has 5 FCP Editing suits and 10 Panasonic Digital Cameras (P2). Situated in the ground floor of the building in the a computer lab with 10 computer terminals along with five edit suits.

(ii) Department of Sound Recording & Design:

The Department of Sound Recording and Design has 3 full sized recording and mixing studios as well as small audio editing and postproduction suites. Of the 3 recording studios, one is based on Auro 3D 11.1 surround, one of the latest surround technologies having a total of 12 channels including speaker monitors above the viewers to create a sense of height to the film viewing experience. Another studio is based on Dolby 5.1 surround sound (the technology which is most popular in Indian and world cinema today) but is upgradable upto 7.1 surround. The third studio is based on traditional stereo sound technology and is used for recording music, Foleys (sound effect), and dialogues.

The department also has the latest and most sophisticated portable audio equipment for on location recording, including state-of the art recorders, mixers, microphones and other accessories. Following the trend in sound technology throughout the world, the department had fully embraced digital audio as the recording medium many years ago, although several world class analogue mixers are still in use.

(iii) Department of Editing :

The Editing Block consists of film and digital video section. The film section has 09 Steinbeck Editing suits in separate chambers and a large hall with 14 editing tables, synchronizers, splicer's etc. The Department has completely transformed itself into new digital domain practices. The Digital Non-Linear Editing (DNLE) section consists of Avid Media Composers and Final Cut pro studio for film editing and Adobe creative suites. The department has steadily moved towards a High Definition work flow with HD VTRS, HD Monitors and HD editing set ups, keeping the International standard of RAW acquisition and Post production facilities. The department has two class rooms, Agit-prop and Vaudeville for regular theory classes, screenings etc. and are equipped with hi-end projection systems and 5.1 surround sound. The department has got 2 hi-end setups for raw data handling and basic color correction unit.

(iv) Department of Cinematography:

Located next to the film studio and the television studio, the Cinematography department is equipped with a wide range of Celluloid & Digital cameras viz. Two operational ARRI 2C 35 mm cameras, one SR III and two SR II cameras (both 16 mm), one ARRI 435-MOS 35 mm camera with video assist system, two BLIV EVO cameras for sync sound exercise, two canon 5D DSLR cameras, four Sony EX3 XD cameras one ARRI ALEXA camera 04 Sony F-55 cameras, ARRI ULTRA prime and Zeiss Super Speed lenses for high and digital film production. The department is further equipped with a temporary practice studio, a Still Photography studio and a cine light and grip inventory including ARRU par lights, tungsten lights, buddy

dolly and small arm manual cranes. The department has active interface with colour correction labs for regular students visit and is in the process of setting up a digital colour correction work station of its own.

(v) Department of Producing for Film & Television:

Audiovisual media is multidisciplinary. A successful production requires putting all the divergence into a smooth and economic framework. It is essential to bring in efficient and professional managers having practical knowledge of media practices. Those managers will also be able to bring in trade related discipline and transparency that will help the productions becoming economically viable and credible. Since, this is an era of specialization, it is necessary to train and use the human resources to contribute to various stages of production practices as creative need of the Industry.

In view of the growing demand of specially trained manpower as Creative Producer in Films and Television, the Institute started a three-year postgraduate diploma course in Producing for Film &TV with an intake capacity of 10 students in each batch, from 2012 after creation of required infrastructure and inducting faculty members.

(vi) Department of Animation Cinema

In the past few years, the world of audio-visual production has gone through a sea change. One of the major areas that have been developed immensely is animation and multimedia related applications. The popularity and prospects of the animation are well known. There is a vibrant vast market and potential for web related application and multimedia CD-ROMS/ Games development, in addition to creative story telling through animation films. India already a major outsourcing destination for animation related work. There is a huge demand for trained manpower to support these creative industry. Thus, it is high time to start this course to keep pace with the changing environment of audio-visual art.

In view of the changing trend and scarcity of specially trained manpower in the field, it is a need of the hour to add a new branch of study in the Institute. Thus, Institute will commence three-year Postgraduate Programme in Animation Cinema with an intake capacity of 10 students in each batch from the year 2015.
